

Heckington St Andrew's Church of England Primary School Newsletter

16th January 2020

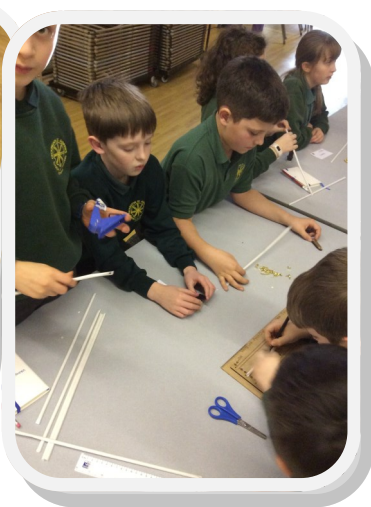

Dear Parents,

The children are all working hard and enjoying their new learning topics; it has been lovely to see some of the excellent work going on in classrooms.

All clubs have started this week and it has been lovely to see how many children have signed up to attend one of our clubs. There are still a few spaces left in some clubs so if you haven't yet signed up, please do so or see Mrs Kelby or Mrs Mason in the office and they will be happy to help.

Yours sincerely

Mrs Bentley

Viking Link Project

This week, Rowan and Silver Birch took part in the big launch of an engineering project to learn all about the Viking Link. The Viking Link is a cable that is being laid between Bicker and Denmark. We will be sharing energy between the UK and Denmark via this impressive cable. The children learned all about how engineers work in different ways to allow projects like this become a reality. We were lucky to meet the Project Manager from Viking Link who spent time with us answering questions and teaching us technical skills as the workshops

Dates for your diary

Having a clear out after Christmas?

We would appreciate any donations of unwanted toys or board games.

If you have anything please drop it off at the office and we would be most grateful.
