

Heckington St Andrew's Church of England Primary School Newsletter

31st March 2022

Dear Parents / Carers,

I cannot believe that we have reached the end of another busy term. We have had a lovely last week with lots of activities including a hands on science day, an Easter bonnet parade in Oak class and a lovely Easter service led by Silver Birch Class. Thank you as well to the PTFA for the Easter Egg hunt that they organised for the children. Despite the rain, the children all really enjoyed it!

We have just received the latest guidance from the government regarding Covid and we will provide an update of how this will affect our school community after the Easter break.

Finally, I would like to thank all of the staff for their continued hard work for all of the children in school and also to all of you for your ongoing support; we do appreciate it. I do hope you have a lovely Easter break and we look forward to see you again on Wednesday 20th April 2022.

With very best wishes,

Mrs J Bentley

An Archaeologist from Heritage Lincolnshire and Miss Coogan will be running the club on a Thursday after school.

Last week in Chestnut Class we learned about friction and how force applied to an object can affect its speed on a surface. We then designed our own investigation to see exactly how friction works. We had jelly cubes in: sugar, desiccated coconut and oil. We then used chopsticks to attempt to pick up the cubes of jelly. After this we assessed and questioned which jelly cube was easier or harder to pick up and how the surface of the cube, depending on the substance they were covered in, affected this. We had a lot of fun and our classroom smelled delicious.
